

# WE'RE HIRING!

## R&D Specialist LEDUC, AB

Interra is hiring an R&D Specialist based in Leduc, AB. An R&D Specialist is responsible for implementing research projects to drive innovation and product development within Interra. They support R&D in a technical capacity, completing all the required testing necessary to ensure field job success and documenting all processes and results carried out throughout the testing period. Strong analytical and problem-solving skills, an ability to write detailed and concise reports, and expertise in downhole completion tools are essential for success in this role.

### Primary Responsibilities

- Assist in test design, setup, procedures, and teardown
- Analyzing data and presenting accurate conclusions
- Maintain detailed documentation of test procedures, equipment used, results, and conclusions
- Record and report SRED information for related testing expenses and hours
- Ensure all technical calculations and simulations are completed when required
- Confirm project specifications to ensure the correct test equipment is being used for the application
- Complete non-conformance investigations and reports when required
- Provide on-call technical assistance when required
- Maintain and update the testing database
- Streamline new technology implementations
- Contribute to tool design reviews and improvements to technologies
- Lead deployments and training of new technologies to field personnel
- Such other duties as assigned by Interra from time to time

### Requirements

#### EDUCATION

- Completion of relevant post-secondary technical education
- Minimum of 5 years of experience in a technical services role related to completion tools
- Self-motivated with the ability to work independently or within a small team
- Valid driver's licence as well as a clean driver's abstract

#### LOCATION AND TRAVEL

- Leduc, AB
- Travel as required

#### DISCLAIMER

The list of job elements, responsibilities, skills, duties, requirements or conditions is not exhaustive but is merely the most accurate list of the current job. Interra reserves the right to revise the job description or require that other tasks be performed when the circumstances of the job change (emergencies, change in personnel, workload or technical development).

### How to apply

Please email cover letter and resume to [careers@interraenergy.com](mailto:careers@interraenergy.com).
